

CREATE YOUR OWN CURRENCY

Feeling worn down by the current state of the economy?
Looking for ways to create your own stimulus package?
Thinking about what you can do to affect your local economy?
Tired of being dependent on the global economy?
Then look no further...

DIRECTIONS:

1. Find a group of people like yourself who have items to sell/trade.
(It could even be friends, family, or coworkers.)
2. Convince these people that creating a local economy is a good idea.
(Use examples like "berkshares". See www.berkshares.org)
3. Using template, create some money to put into circulation. Make a name for it.
4. Offer incentives to use your currency, (such as a 10% discount.)
